

10 Step Construction Process

- 1** Thorough discussion with the client regarding their expectations and functionality of their project
- 2** Provide a detailed budget/estimate
- 3** Coordinate professional consultant designs for the project
- 4** Compile all documentation and submit to relevant authority in order to obtain a building permit
- 5** Formulate the appropriate contract and present to client
- 6** Carry out the construction of the project on time and within budget
- 7** Keep client up-to-date with the progress of the project
- 8** Critical works are inspected by qualified consultants during the construction process
- 9** On completion, a certificate of construction compliance is provided to the client
- 10** A pre-completion inspection is offered to the client prior to handover
